

## How to replace tags

Tags can be replaced due to a failure or loss of the tag, and tags may be replaced due to upgrading them from one type of tag to another (i.e. electronic slaughter tag to full EID tag).

- On the top navigation bar click on **Farm Records**. Move your mouse over **Manage Animals** on the tool bar. From the drop-down list of options select **Replace Tags**.
- The form has options for **Replacement** or **Upgrade**.

### REPLACING A TAG

- Select the **Replacement** button.
- Select the holding number where the replacement occurred and the species of the animal.
- Select the replacement date and the reason why the tags were replaced. You can optionally leave a comment as well.
- When the details are entered, click the **Next** button.

- When replacing individually identified tags, record the individual numbers of the old tag and the new tag. If you do not know the old tag you can leave it blank.
- When replacing batch tags, you only need to record the batch numbers replaced.
- Clicking the **Next** button will submit the request to save the replacement.

## UPGRADING SLAUGHTER TAGS TO FULL EID TAGS

- Select the **Upgrade** button.
- Select the holding number where the replacement occurred.
- Select the replacement date and optionally leave a comment as well.
- When upgrading a batch tag to EID tag, you must select the batch number and animal total and the individual EID numbers of the replacements (one per line).
- When upgrading EID Slaughter to Full EID tags, you must enter both the EID numbers of the EID Slaughter and Full EID tags.
